

INDUSTRIAL INTERNET OF THINGS (IIoT): WHAT CAN IT DO FOR US?

Friday, April 30th, 2021 (1:00 pm EST to 2:15 pm EST)

Anova is the leading, global IIoT company that supplies remote asset monitoring hardware and software and services, delivering data insights, reducing costs, preventing stockouts, and improving customers' service. From supply chain optimization and advanced analytics to environmental compliance and hazardous container tracking, Anova has a growing client base, with over 700,000 assets across 70+ countries being monitored over cellular, satellite and LPWAN networks.
