THE RACEMICS PRESENTS: THE BIG FREEZE OUTLOOK FOR HOUSTON

MARCH 18, 2021

1:00 PM EST TO 2:15 PM EST

TREY HAMBLET

 **Industrial Info Resources**

Trey Hamblet is the Global Vice President of Research for the Chemical Processing & Alternative Fuels Industries of Industrial Info Resources. In this position, he manages research teams that identify and track project spending in all segments of the Chemical Processing Industry globally. Additionally he manages multiple commodity research teams tracking offline maintenance events, planned capacity additions and similar activities in chemical, gas processing and energy industries. An Industrial Info employee since 1991, Mr. Hamblet also serves as the VP of Research Operations and is a member of Industrial Info's board of directors.
